Otsuka Corporation

Mission Statement

Mission

OTSUKA CORPORATION serves a wide range of companies, providing comprehensive support for their business activities by presenting, within a concrete framework, new business opportunities and management improvement strategies brought about by innovations in information and telecommunication technology. By so doing, we continue to facilitate the growth of our client companies and contribute to the development of our country and the creation of a spiritually enriching society.

Goals

- To become a corporate group that is recognized and trusted as a valuable corporate citizen.
- To encourage employee growth and self-realization through the attainment of personal goals and professional achievement.
- To demonstrate harmonious coexistence and growth with nature and society.
- To create business models that consistently keep pace with the changing times.

Principles

- Always thinking from the customer's perspective and acting through harmonious team work.
- Maintaining the spirit of challenge inherited from our predecessors, exercising our own critical judgment, and acting on our own initiative.
- Fully complying with all prevailing laws and regulations, and maintaining high ethical standards.

Otsuka Corporation

Energize Your Office with IT

Since its foundation in 1961, OTSUKA CORPORATION has gained expertise by pioneering in the introduction of IT equipment and cutting-edge technologies such as AI that companies need to raise productivity and reduce costs. We are leveraging this experience to deliver optimal, one-stop solutions, together with one-stop support, to solve the problems our customers face.

The OTSUKA CORPORATION Group will energize your office with IT by putting our Mission Statement into practice while always adopting the customer's perspective in response to the trust placed in us. We are committed to contributing to the sustainable growth of society as an IT platformer that connects its partners and customers .

We also embrace harmony with nature and society as a vital management concern and remain a progressive enterprise integral to the creation of a spiritually affluent society.

Our major goal is to earn public recognition and respect for the OTSUKA CORPORATION Group by maintaining the spirit of challenge inherited from our predecessors and the commitment to customer satisfaction that has been our consistent focus since our founding. As we respond to future changes in society, we will always stand at the side of our customers, striving to live up to their trust and achieve growth together with them.

Throughout these commitments and initiatives, we are grateful for our customers' strengths, visions, and encouragement.

Yuji Otsuka

President & Chief Executive Officer

History

- 1961** Start of business in Akihabara and registration as a joint-stock company

Robust DX promotion platform empowers customers in their operations to increase productivity and reduce costs.

System Integration OTSUKA CORPORATION's DX solutions support the entire office

In today's rapidly changing business environment, DX is essential for driving corporate growth, and companies are increasingly adopting AI to achieve it. With the introduction of the latest AI PCs and Copilot+ PCs, companies can perform advanced data analysis and leverage diverse data to accelerate their growth. Since before the idea of DX took shape, OTSUKA CORPORATION has been utilizing IT to provide diverse work style options for its employees as a means of boosting productivity. We also

DX for All Management and Sales Operations

For managers and sales representatives, we offer practical ways to leverage the latest AI applications, data analysis methods, and sales support tools, along with tips for improving operations and boosting business performance.

- **Sales DX**
 - Tap into OTSUKA CORPORATION's sales know-how
 - Apply RPA to order processing to replace manual work
 - Achieve faster order management with mobile devices
 - Receive AI support across the entire sales process, from negotiations to securing orders
 - Increase your conversion rate by making use of untapped business cards
 - Make an impact with industry information gathering and sales preparation
 - Strengthen customer relations with effective business card management
 - Boost brand power with a professionally designed website
- **Management DX**
 - Achieve DX across the entire workflow with kintone
 - Integrate data from cloud and on-premise systems seamlessly
 - Make informed decisions based on data with BI tools
 - Drive faster, more accurate decision-making with AI
 - With support from professionals, overcome management challenges that IT alone cannot address
- **Generative AI Utilization**
 - Ensure timely utilization of generative AI in 2025
 - Quickly share the results of business meetings
 - Enhance business processes through full use of RPA and AI
 - Create promo materials effortlessly using generative AI

Main Solutions

ChaChat Assist, dotData Insight Lite, Notta, Integrated DX package, kintone, Acrobat AI Assistant

DX for Entire Back-Office Operations

We provide solutions to improve and optimize operational efficiency by using ERP for integrated management across the entire business and realizing end-to-end digitization of back-office operations, such as accounting and human resource management.

- **Accounting DX**
 - Digitize invoicing
 - Realize smooth acceptance of transaction documents
 - Accelerate expense reimbursement
 - Optimize the accounting process
 - Visualize the status of security measures
- **Legal Affairs DX**
 - Incorporate AI for high-level review of contracts
 - Accelerate transactions with electronic contracts
- **Human Resource DX**
 - Visualize the status of work
 - Digitize labor management
 - Effectively use human resource data
- **General Affairs DX**
 - Centralize in-house documents
 - Digitize procurement and purchasing
 - Incorporate AI to enhance employee welfare program
 - Introduce a safety confirmation system for reassurance during emergencies

Main Solutions

Integrated DX package, "tayoreru" payroll operation support system, KMD Connect for SMILE, Kinjiro, eValue V Air mini

Closely monitoring IT trends makes it possible for us to consistently identify the potential advantages of using IT equipment and services at the business sites of our customers. By developing our accumulated expertise into solutions and services that fully leverage cutting-edge IT, we present customers with a variety of proposals for solving their problems.

support companies in their DX promotion with solutions based on the IT-related knowhow we have accumulated over the years, including hardware, software, communication lines, networks, security, AI, IoT, and RPA. We listen carefully to requests and issues about office IT, work closely with customers, and provide the support for the entire office of our customers as a total solution to channel IT solutions and support in the best possible way.

DX for Entire Work Style Transformation

Create a stress-free working environment with high-speed connections that boost productivity. Our range of cloud services will drive DX, fostering a pleasant workplace that revitalizes the organization.

- **Smart Meetings**
 - Web conferencing
 - AI-generated meeting minutes
 - Real-time sharing of ideas
 - Strengthen your team in "evolving meeting rooms"
 - Real-time translation
- **Stress-Free Network**
 - High-speed Internet connection
 - Closed VPN service
 - Routers, switches, wireless access points
 - Network assessment
- **Hybrid Work**
 - Remote access
 - Communication tools
 - Use smartphones as an extension of the company landline network
- **Measures to Address Customer Harassment**
 - AI-equipped network cameras
 - Call recording

Main Solutions

Zoom, AutoMemo, Tayoreru Hikari, Dokodemo Connect, CACHATTO, Aspire, RemoteView, Rakuraku Network, LINE WORKS, Verkada, Tobilaphone

DX for Complete Risk Management

We offer solutions that address corporate IT risks, including protecting confidential information from viruses and cyber attacks, business continuity planning (BCP) for disaster situations, and secure, flexible cloud service operations.

- **Security Diagnosis**
 - Visualize the status of security measures
- **Authentication and Asset Management**
 - Ensure the security of company information assets
- **Network Security Management**
 - Ensure your Internet entry and exit points
- **Email Security and Antivirus Measures**
 - Prevent internal fraud and computer terminal virus infections
- **EDR, MDR, and Ransomware Countermeasures**
 - Detect abnormalities and minimize damage
- **Cyber Insurance**
 - Provides compensation for any expenses that arise in the event of a cyber attack
- **Data Protection and Recovery**
 - Mitigate damage caused by ransomware
- **Server Redundancy and Cloud Utilization**
 - Keep system operations running in the event of a disaster or other disruptions

Main Solutions

Attack Surface Assessment, SKYSEA, Rakuraku EDR Premium, Rakuraku Cloud Backup, Dropbox, Microsoft Azure

OTSUKA CORPORATION's Own DX Initiatives

In our "Otsuka Strategy," launched in 1993 and fully operational in 1998, we integrated the databases for our ERP and information systems to lay the platform for our current DX operations. This platform remains the backbone for ongoing improvement of our financial constitution and enhancing productivity. We are also continuing our efforts to use AI to support sales activities, including AI recommendations on optimal choice from a range of solutions for specific customers to strengthen and promote our concept of addressing the needs of the entire office.

We were recognized as a DX-Certified Operator in 2021 and as a Noteworthy DX Company for two consecutive years, 2024 and 2025. Leveraging the experience and expertise gained through our initiatives, we provide essential DX solutions for today's business environments.

Optimal customer-focused solutions for diverse office environments

Our customers, ranging from large enterprises to mid-sized and small companies across diverse industries, face challenges in their offices every day. We address these issues with the best possible solutions, backed by our extensive in-house experience and expertise, so that we are ready to help with even the smallest problems.

System Integration

tanomail

tayoreru

Main Solutions

Document Solutions

Digitization and centralized management of documents, including invoices and business cards

Communications and Networks

Solutions for office ICT environments and telework

ERP and Information Systems Applications

Integrated DX package that unifies core and information system databases

AI

Analytic, predictive, and generative AI solutions

Electric Power Solutions

Environmental solutions, including LED lighting and lighting control systems

Security

Solutions for establishing secure office environments

Office Supplies (tanomail)

Mail order office supplies service for corporations

Customer Support (tayoreru)

One-stop support for a wide range of corporate operations

Disaster Preparedness and Response

LPG-fueled power supply vehicles and other solutions for disaster preparedness and response.

The right solution for any customer need lies in our comprehensive **System Integration** and **Service & Support** offerings.

System Integration

We create information systems that enable the customer to enhance productivity and reduce costs through an optimal combination of network infrastructure, servers, PCs, mobile devices, multifunction machines and software developed by different companies.

- System Integration**
-  **Consulting (analysis of tasks, operations)**
 -  **Software and Systems (planning, design, development)**
 - ▶ ERP and information systems applications, integrated DX package
 - ▶ Document management, data utilization
 - ▶ CAD / construction, manufacturing
 - ▶ Cloud (ASP) / office software
 - ▶ Creative / graphics software
 - ▶ IT asset management
 -  **Telecommunication Network (communication lines and infrastructure)**
 - ▶ Providers, mobile devices, line service
 - ▶ Network equipment, PBX business phones, web conferencing, video conferencing
 -  **Security (information leakage, BCP)**
 - ▶ Antivirus, email security, procedural measures
 - ▶ Data backup
 - ▶ Contingency planning
 -  **Hardware (introduction and installation)**
 - ▶ Multifunction machines, copiers, printers
 - ▶ LED lightning, BEMS
 - ▶ PCs, peripherals
 - ▶ Smart devices
 - ▶ Servers, storage

Service & Support

We provide services that support businesses in every aspect and situation, including mail order office supply sales, support and trouble-shooting during system construction, operational management and information system analysis.

- tanomail**
- 

- Corporate Mail Order Shopping Service for Office Supplies
 - Mail Order Shopping Service for Nursing Care Products
 - Personal Mail Order Shopping Service
- tayoreru**
- 

- Hardware and Software Maintenance**
 - ▶ Monitoring service
 - ▶ Data recovery
 - ▶ Onsite support
 -  **Telephone Support**
 - ▶ Remote support
 - ▶ Contact point for repairs
 -  **Online Support**
 - ▶ FAQ
 - ▶ Repair request
 -  **Support for Business Operations**
 - ▶ Operational support, educational support, back office support
 -  **Outsourcing**
 - ▶ Web service
 - ▶ ASP service

MULTI-VENDOR

MULTI-FIELD

Creating information systems by tackling business challenges at the side of our customers

Businesses need to establish systems for visualizing the current status of management and customer businesses while remaining flexible and responsive to the changing external environment. The scope of system integration is expanding to encompass collaboration between existing IT and AI functions as well as the hybrid operation of cloud services. We provide a one-stop solution that consistently supports and strengthens corporate growth and the success of customer businesses.

- Multi-vendor, multi-field response

Single contact point for multiple solutions

Comprehensive solutions from the customer's perspective

Consulting

After a solid review of the customer's business, we support each field with reasonable system operations that deliver material results.

- Consulting on internal controls
- BEMS (Building Energy Management System)
- Management support services

Security

We provide airtight protection against invisible threats and create a secure office environment in which customers can do their work safely.

- Protection against unauthorized access
- Protection against computer viruses
- Data backup
- Prevention of information leakage
- BCP (Business Continuity Plan)
- Data erasure

Network

We fully upgrade customer business communications by reviewing network environments, including phones, and provide optimal services to create an integrated IP environment.

- VPN service
- IP communication service
- Mobile solutions

Cutting-Edge Solution Service

We help companies promote DX using cutting-edge technologies including AI, IoT, and RPA.

- AI "Mikoto" generative-AI made in Japan, AI analysis and utilization (regression, targeting, and classification tasks), chatbot, AI camera
- IoT Remote work support solutions, sensor devices, robots, drones, LPG-fueled power supply vehicles

Software and Systems

We draw on our abundant experience to develop and deliver systems and groupware for businesses and operations.

- Integrated DX package
- CAD
- Document systems and document management
- ERP
- Electronic contracts and paperless processes

Hardware

We respond to customer needs with a multi-vendor approach that is not dependent on products offered by any one specific maker, together with a multi-field approach that encompasses the entire spectrum of IT equipment.

- Servers
- PCs
- Multifunction machines, printers
- Network equipment
- Peripheral equipment
- Smart devices

LED Lighting

We offer an extensive range of effective LED lighting options for reducing electricity use in offices, warehouses, factories and shops.

- Incandescent and halogen lamp type
- Fluorescent light type
- Mercury lamp type
- Floodlights
- Disinfection LED lighting
- Lighting control

Optimal solutions for every line of business

 Manufacturing	 Publishing / Printing	 Construction
 Apparel / Jewelry	 Food products	 Retailing / Merchandising
 Raw materials	 Service	 Distribution
 Public institutions / Industry associations	 Local government / Extra-governmental organizations / Schools	 Medical, welfare and nursing care institutions

Service & Support

tanomail

“tanomail” reliably meets all of your office needs and offers very quick delivery.

A broad range of products from office supplies and everyday items to nursing care products are available through the “tanomail” mail order service. We provide quick solutions to meet the needs of every customer, both corporate and individual.

- Reduced customer procurement costs
- Fast delivery through an efficient distribution network

■ tanomail

Mail order service for office supplies

This mail order service for corporate customers delivers office goods and services. In addition to stationery, PCs, tools, daily items and office equipment supplies, it offers environmentally friendly products and TANOSSEE private brand goods.

As of October 2025

■ MA tanomail

Procurement support service

This service facilitates corporate purchasing at mid-size and large companies, including division-by-division order management and approval functions. Purchasing parameters can be set according to the purchasing rule of the company. Also, we provide support from the initial stage of constructing the service environment.

■ Personal tanomail

Mail order service for individual customers

Customers can use “tanomail” products not only in their office but also at home. In addition to everyday goods, stationery, and office supplies, we support the daily needs of customers with food products and other necessities.

■ tanomail Advance

Online sales of IT solutions for corporations

A website that allows companies to register as members, apply for services, and manage contracts. Services are available as early as the next day, supported by a dedicated help desk to ensure the introduction of the latest IT solutions is seamless and worry-free.

■ Care tanomail

Mail order service for nursing care products

“Care tanomail” provides nursing care products under the concept of “offering backup for everyone involved in nursing.” We offer a reliable lineup of these products to both individual and corporate customers.

■ Logistics

We have established a distribution network centered on six logistics and distribution centers located across Japan to realize our goal of delivering what our customers want, when they want it. We deliver our customers' products with care and make a daily effort to improve the quality of our service.

What is “tanomail”?

たよれーる

- Entire support menu covered by our in-house system
- Reliable IT operations and management
- Labor savings based on a review of business operations

たよれーる

Business support

Stronger focus on core business activities

- Support calls per month approx. **150,000**
- Support staff approx. **600**
- Support sites **280** across the country
- Number of engineers approx. **3,000**

A photograph showing a perspective view down a long aisle in a data center. On the left side of the aisle, there is a long row of white server racks. Each rack has a grey door with a black handle. The floor is light-colored, and the ceiling has recessed lighting fixtures. The aisle leads towards a bright white wall at the end.

Sustainability

Sustainability

We steadfastly strive for a sustainable global environment and society and to enhance corporate value.

We are committed to creating a sustainable global environment and society while enhancing corporate value. To achieve this, we put the mission, goals, and principles of our Mission Statement into practice, actively addressing environmental and social issues, and optimize our governance system.

■ Demonstrating harmonious coexistence and growth with nature and society

■ Setting ambitious goals for sustainability initiatives

Reforestation Project in the Amazon

Since 2022, we have been working with Conservation International Japan to reforest 9 hectares of land in the Brazilian Amazon by cultivating a variety of trees. We have introduced agroforestry, which combines agriculture with forestry, on local farmland owned by families of small-scale farms who support the project, and we provide them with the necessary supplies and technology. The participating farmers prepare the soil, plant trees, and undertake post-afforestation management. Having completed the two-year project, we launched a new five-year initiative in 2024 to monitor the management and growth of the planted trees. Extreme drought and natural fires have hindered reforestation in some areas, and we continue to engage in the project through a process of trial and error.

Sustainability Committee

The Sustainability Committee was set up in November 2021 to promote management from the perspective of sustainability. To guide the Company in contributing to the achievement of the SDGs and responding to ESG issues, the committee formulates Company-wide sustainability policies and goals, builds and maintains a promotion structure, and appropriately monitors sustainability activities using an ISO 14001 management system.

In September 2025, we received the Bronze Medal for sustainability as rated by EcoVadis, a distinction given only to companies in the top 35%. EcoVadis is a global platform that assesses corporate sustainability initiatives across four themes, and we achieved a strong score in the Environment category.

Materiality

In 2022, OTSUKA CORPORATION identified and announced nine material issues. In response to changes in the external environment, including growing international interest in environmental and human rights issues, the company reviewed and redefined these priorities in February 2025.

Process of Identifying and Reviewing Material Issues

Nine Material Issues

Value creation through business activities	Support for employee growth and self-fulfillment	Implementation of responsible corporate activities (revised)
Maintenance and expansion of the customer base	Improvement of employee engagement	Contribution to preserving the global environment
Coexistence and co-prosperity with partners	Promotion of diversity, equity, and inclusion	Realization of a safe, secure, and comfortable society
Coexistence with the community	Human resource development	Enhancement of corporate governance

Environmental Protection

Realizing a Decarbonized Society

In June 2023, we received certification from the Science Based Targets initiative (SBTi) for our greenhouse gas reduction targets through 2030. We also conducted scenario analyses through 2050, updated our disclosures in line with TCFD recommendations, and published a climate transition plan in May 2025, to achieve net-zero by 2050.

Introduction of Virtual PPA

We revised our environmental policy in 2023 and clearly specified our target of achieving net-zero by 2050. In 2024, we implemented a virtual power purchase agreement (PPA) toward meeting our science-based target and achieving net-zero by 2050. The PPA enables us to purchase the environmental value produced by a solar power plant established by a power generation company, thereby reducing our carbon footprint by sourcing all of the electricity we use from renewable energies.

Social Activities

Cooperation Agreement on Disaster Management

In 2023, OTSUKA CORPORATION concluded disaster management agreements with 15 municipalities in Ehime, Kochi, and Hyogo Prefectures to ensure prompt and efficient implementation of emergency measures in the event of a disaster. We make donations through the corporate version of Furusato Taxation for strengthening their regional disaster preparedness, and provide daily necessities after large-scale disasters. For these initiatives, we received the FY2023 Minister's Commendation for Regional Development Support Taxation (Corporate Version of Furusato Taxation) from the Cabinet Office.

Well-Being

We are committed to advancing the Group's well-being management and promoting a better work-life balance for our employees. This includes measures to boost their physical and mental health, address women's health issues, and increase the rate of male employees taking childcare leave. Consequently, we have received the following recognitions: "L-boshi (3 stars)" certification in December 2019, Kurumin certification in June 2023 and September 2025, and selection by the 2025 Certified KENKO Investment for Health Outstanding Organizations Recognition Program (Large Enterprise Category). In addition, the AI Happiness smartphone app, developed by Happiness Planet, Ltd., has been adopted across the Group, enabling regular assessments of organizational happiness by visualizing each employee's happiness level to integrate these results into organizational management.

Otsuka Corporation

<https://www.otsuka-shokai.co.jp/english/>

OTSUKA CORPORATION is fully committed to environmental improvement.
ISO 14001 certification has been acquired by 25 domestic offices.
